Microsoft Dynamics Nav

Dynamics Nav offers a complete ERP (Enterprise Resource Planning) Solution with unparalleled integration in the standard Microsoft Office product range. Suitable for both small businesses up to International organizations Nav truly offers a **Lifetime Solution** your business is unlikely to outgrow.

Nav Express Project.

Mindful of cost we have introduced "Nav Express" to allow business owners gain the benefits of Nav but at a much lower cost.

Pre-Configured Database

You get to make your own setup decisions but to speed the project up we have pre-configured the most popular options.

Excel Setup Decisions

We present all key system setup decisions in excel. You can modify these in excel in your own time thus reducing the consulting time needed.

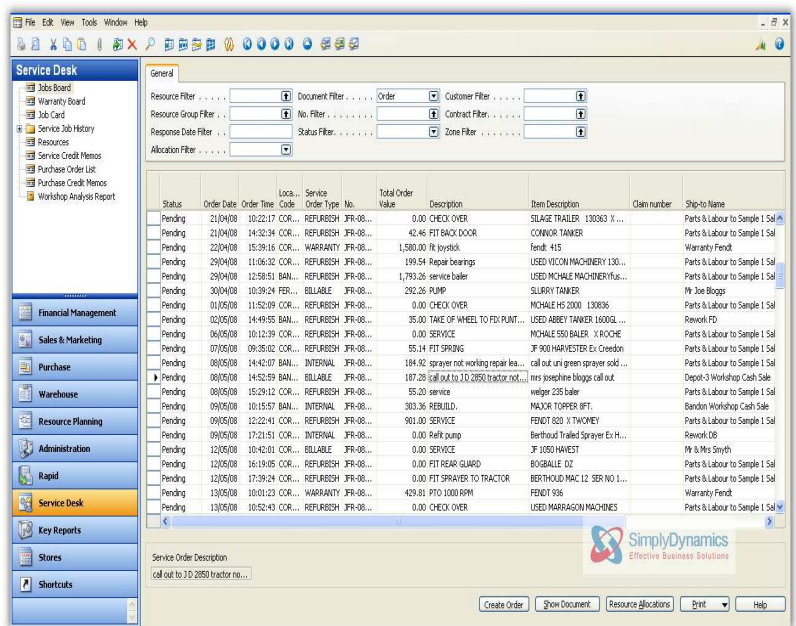

Unlimited Web Training

We offer 3 months unlimited web training to allow users get familiar with their normal day to day tasks on Dynamics Nav.

Excel Data Migration

We offer the option of migrating your data from your legacy system but you can also present us your data in Excel again reducing your external costs.

And lastly we're just very good at what we do.

Try Before you Buy

You can take Dynamics Nav for a trial run from your own desk via the web. Just visit our website www.simplydynamics.ie and follow the "Test Drive" link.

Our Support section also offers comprehensive fact sheets on each of the Dynamics Nav modules and technical guides.

First Hand User Experience

Dynamics Nav has numerous active user groups. You can see what comments and issues other businesses have by following the links from our main web page.

We are also happy to provide your business reference calls into our Customers and will endeavor to provide a close fit reference call.
